TERM:_____

From the very first entry into this lot, people have disliked it. As you drive up the steep, rutted driveway, you can grit your teeth to sound analogous to having your rear bumper being torn off. Once up the drive, the wide expanse of the unlighted lot spreads before your eyes.

This lot, with its present facilities for illumination, is a perfect location for the operation of Midnight Auto Parts, Inc. In the first quarter alone, one person had his car, which was locked with the brakes set and transmission in gear, stolen from the lot. Another party had his mag wheels stolen and his car literally dropped to the ground. In recent weeks batteries have become the necessity to borrow.

In the opinion of car-owning residents of the dorms, if MSOE can charge us to park here on campus, and require us to use this lot, they should at least have enough regard for our interest to install a protection system. The easiest and probably most effective way should be to "Let there be light."

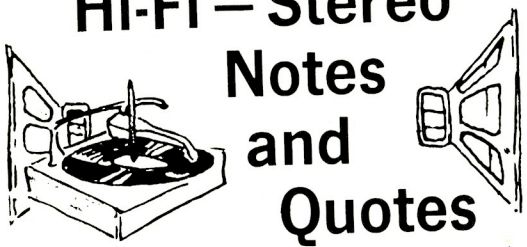
Hi-Fi – Stereo Notes and Quotes



There has been much controversy in the HI–FI Stereo field. One issue is the bandwidth of amplifiers. Many amplifier manufacturers use bandwidth as a selling point. They'll say "our amplifiers respond from 6HZ to 50KHZ, and brand X'S only respond to 20 KHZ." Is this wide response necessary? Some manufacturers say it reduces distortion in an amplifier. The question is still highly debatable. By actual listening tests, the groups couldn't tell the difference between the two types of amplifiers. This is due to the fact that the best speakers are approaching only 3% distortion as a minimum. For this reason the decrease in distortion below .5% or less in amplifiers is not noticeable to most audio buffs.

Stereophonically yours,
John Bunkfeldt

P.S. Do you have any ideas or criticisms of my column? If so please drop a line to me at the MACE office or with Pat at the switchboard.

student body. Beard pledges take place simultaneously with the vote for St. Pat candidate. The beard pledge give the fraternity or organization of the student's choice added points toward their St. Pat candidate. A minimum of ¼ inch of growth is mandatory and has to be a continuous growth from side burns to chin. No "goatees" are accepted. A member of the faculty will serve as judge.

The beard contest is a separate event and can be entered by the entire student body. Respective winners are presented appropriate awards. Judging takes place on Wednesday. Eligibility for the beard contest requires a minimum growth of ½ inch.

St. Pat's Day is the one time during the year when students can "let loose" and put aside the "professional" attitude they hold for every other day of the year. St. Patrick's Day is a traditional celebration held by and for students at most engineering colleges. –– And it is just that, a tradition.

HOW CAN IT BE? – VIET NAM VETERAN

Reprint from
The Daily Times, Ottawa, Ill.*

A year of service in Vietnam has left a memorable impression on David E. Fessler, son of Mr. and Mrs. Forrest Fessler of Marseilles RFD 2, who arrived home Sunday.

Young Fessler, who will be 23 on Feb. 10, has completed two years in the Army and was discharged Jan. 13 in Vietnam where he had been stationed since Jan. 18 of last year.

In a recent letter to his mother concerning the war in Vietnam and demonstrations against it in this country, the young man who attended Seneca High School wrote:

"My God, how can it be, that one boy lies rotting from malnutrition and torture in a jungle prison camp in North Vietnam and another boy spits and tramples on the flag of his country on the steps of a university of learning?

"My God, how can it be that one boy lies sightless in a U.S. Naval Hospital from Communist inflicted wounds and another boy uses a Communist flag to drape himself in defiance of the laws of his country?

"That one man of medicine begins his 30th straight hour standing over an operating table in pursuit of life for men serving their country – and another man of medicine implores crowds of young men to refuse to serve their country?

"That one Negro holds the face of his dead white comrade in arms and cries pitifully in a dirty mudhole in Vietnam – and another Negro screams with hate against the white brother on the streets of countless American cities?

"That one boy lies in a coffin beneath the ground because he believed in duty to his country – and another boy lies on a dingy cot giving blood to the enemies of his country?

"That one man of God shields a wounded boy from an enemy bayonet with his body and dies – and another man of God uses his cloth as a shield to preach hate, dissension and lawlessness.

"Oh, my dear God, how can it be?"

Fessler, who served as a maintenance man, was stationed near DaNang as a private first class, when discharged. He also saw service in the Xuan Loc area. *Submitted by George Charbonneau
